

Name

Savvis

Headquarters

1 Savvis Parkway,
St. Louis, Missouri 63017

Significant operations in
North America, Europe and Asia

Profile

Savvis, which merged with CenturyLink in July 2011, is an outsourcing provider of managed computing and network infrastructure for IT applications. By outsourcing to Savvis, enterprises can focus on their core business while Savvis ensures the quality of their IT infrastructure. Leading IT organizations around the world have selected Savvis to help them improve their service levels, reduce capital expense and deal with the rising costs of bandwidth, energy, real estate, staff and expertise. As a pioneer in utility computing, Savvis understands and harnesses the latest advances in technology such as virtualization, cloud computing and support process automation.

Key Metrics

- Nearly 2,500 unique business and government clients, including more than 30 of the top 100 companies in the Fortune 500
- More than 2,500 employees with deep expertise in technical operations, customer support, engineering and consulting

Products & Services

Savvis provides IT infrastructure services that can be used as part of a total outsourcing solution or to selectively support specific applications or business units.

Services include:

- Cloud – one of the industry’s broadest lines of enterprise-class cloud services
- Colocation, Managed Hosting and Utility Compute – facilities and operations; compute, storage and network
- Network – converged applications; community of interest networks; private lines; Internet
- Security – managed security services and consulting
- Industry Solutions – financial, government and Software-as-a-Service (SaaS)
- Professional Services – infrastructure, security, business continuity, compliance and program management

Infrastructure

The Savvis and CenturyLink combined infrastructure extends to 45 countries and includes:

- 48 data centers, encompassing approximately 1.9 million square feet of raised floor
 - 22,000 managed circuits in a private network supporting multiple application service levels
 - Tier-1 OC-192 Internet backbone with more than 207,000 miles of fiber
-

Target Markets

Savvis focuses exclusively on providing IT services to business enterprises and the public sector. Because of its global infrastructure, management systems and business model, Savvis has the unique capability to deliver fully managed and integrated IT solutions to enterprises with offices around the world.
