

Savvis IT Infrastructure

Transform Your Enterprise . . .

with Savvis Symphony enterprise-class cloud services.

**Savvis Symphony** is a visionary suite of flexible enterprise-class cloud services, designed and deployed to meet the broadest range of global computing needs. From integrated and hybrid cloud solutions to fully virtualized cloud data center solutions, Savvis Symphony can transform your enterprise. How? By delivering maximum scalability and security, seamless migration, a flexible engagement model and superior performance for even your most mission-critical business requirements. So you can stop struggling with maintenance and focus on innovation — on what will help your company grow. Transform IT with Savvis Symphony and unlock innovation across your entire enterprise.

#### **Business Innovation**

Savvis Symphony delivers tight alignment between IT investment and business ROI, including:

- Flexible engagement models that adapt to changing business needs
- Deep business and vertical expertise
- Support by a robust ecosystem of partners and enterprise technology vendors
- Planning and migration services that promote success of transformational efforts

#### **IT Innovation**

Savvis Symphony helps turn IT into an agile, responsive service provider, including:

- Staff for innovation, not operations
- Implementation of IT-as-a-Service
- A dramatically simplified vendor environment
- Fluid transition from legacy deployment models to cloud

#### **Developer Innovation**

Savvis Symphony delivers server, compute and storage resources, including:

- Online, pay-as-you-go service
- Seamless scaling to production in a unified environment
- More time developing and less time on production and migration debugging
- Costs that are competitive with commodity developer clouds
